"My mother was about giving up all hopes. After months of sleepless nights caring for me, a friend recommended Cuticura Soap and Ointment. She persuaded and after she had used a box of Cuticura Ointment and eight cakes of Cuticura Soap I was healed." (Signed) Miss Carrie Doyle, 667 Saratoga St., E. Boston, Mass., June 27, 1917.

BEST LIVER AND BOWEL LAXATIVE FOR FAMILY USE

"CASCARETS" REGULATE WOMEN, MEN AND CHILDREN WITHOUT INJURY

TAKE WHEN BILIOUS, HEADACHY, FOR COLDS, BAD BREATH, SOUR STOMACH

Instead of nasty, harsh pills, salts, castor oil or dangerous cathartics, why don't you keep Cascarets handy in your home? Cascarets act on the liver and thirty feet of bowels, gently you don't realize you have taken a cathartic, but they act thoroughly and can be depended upon when a good liver and bowel cleansing is necessary. They move the bile and poison from the bowels without griping and sweeten the stomach. You eat one or two at night like candy and you wake up feeling fine, the headache, biliousness, bad breath, coated tongue, sour stomach, constipation or bad cold disappears. Mothers should give Cascarets, sick, feverish or bilious children. Cascarets are as gentle as they are harmless and safe for the little folks.

TALKED ABOUT IN WESTERLY

Wood Cutting in Swamps During Winter Freeze—Promoting

Thrift Stamp Sales—District Superintendent George G. Scrivener, of Norwich, Holds Quarterly Conference—

Funeral of Edgar H. Stillman—Wedding—College Club Meets.

There is a noted fox hunter in Westery who prides himself as hunting foxes for the sport there is in it, relying solely on dogs and gun, to put an end to the animal, the destruction of poultry, but is not averse to accepting the bonus offered by the state or town. He has but little use for the man who hunts foxes with pick and shovel, who digs the fox out and slaughters. The Westery hunter and a hunter of the pick-and-shovel type from the suburbs met on High street Wednesday. The Westery hunter, who naturally referred to the method of fox hunting adopted by the suburbanite, and received this response:

"Say, Tom, do you remember the day when you and Elvira thought you tracked a fox underneath a ledge, when you got some keroseene soaked rags and tried to smoke out the fox you didn't get? Well, I got that fox. There may be a difference from sportsman's standpoint, between smoking out and digging out a fox, but there's mighty little distinction." "You're right, I do remember that little incident a life time, but I've still got my dogs and guns and get a fox now and then and I always give the fox a run for his life. But, you have sold your dogs, hung up your gun, and still do the pick-and-shovel fox hunting. You're the same old sport."

There is a swamp woodland over in the Westery section that has been inaccessible for many years. The severe winter weather has frozen the place over solidly, and now two horse teams are being driven in the swamp land. An enterprising man has been earning a good dollar, and incidentally relieving the fuel connection, has been permitted to enter upon the property and convert the swamp into a field of the best quality. He has a force of good choppers at work and is rapidly carting the cord wood to the roadside where cartage in the swamp land is good. He is making cord wood while the cold lasts, for there soon will come the time when horses or men will not be safe in that mireland.

The Rhode Island Pharmacy has been designated as one of the fifteen enrolling places by the Rhode Island Public Service Reserve, in the recruiting campaign to provide 5,500 workers needed for government shipbuilding. Men desiring to enter their names on the list of reserve workers may conveniently consult the enrolling agent at the Drug Store on the Square. Those who enroll merely place their names on record as being willing to enter government employ in shipyards, and thus add in the big task underlying this special preparatory work, the building of ships to transport men and ammunition overseas. When calls for labor forces are made those who enroll will be sent notices of the much-needed hospital. The number of \$10,000 was furnished by the state. Mr. William D. Hoxsey, but the required amount has not been raised to make that money available.

The members are divided into groups of sixteen, each one of the groups providing a quarter, the price of one thrift stamp. A filled thirty-cent stamp is then disposed of the sixteen stamps filling it. The winner's name is then eliminated from the list. This method is continued at each meeting until each person in the group has filled the cost advance as the players decrease. Each filled card is worth \$4 in exchange for a war savings stamp.

The assistant janitor received a cord of wood on the lawn and started to place it in the fire room when a well-known practical joker came along. He said he was an inspector of wood and was going to measure the wood to see if it was a full cord had been delivered. He took out his tape measure, took the measurements, and to be correct he measured across. Then he told the assistant janitor there was something wrong and to touch not a single stick until authority was given him to do the job. The assistant janitor took the matter seriously for about fifteen minutes, then took a tumble and tumbled the cord of wood into the fire room. That's a good one, he says, "he played a good one on me, I'll give the sheriff one of my crooked olives when next I see that gentleman."

Before the Rhode Island National Guard were federalized it cost the state \$25,000 to guard bridges and public buildings. The state has been a statement of the expense has been sent to congress for reimbursement.

No definite action has been taken in Westery as to the establishment of a much-needed hospital. The number of \$10,000 was furnished by the state. Mr. William D. Hoxsey, but the required amount has not been raised to make that money available.
